

## Update: Electronic Information Disclosure Statement (eIDS)

January 8, 2003

SIRA, OCIO, and the Electronic Business Center (EBC) are pleased to announce that Applicants have begun submitting eIDS forms via ePAVE. Up to 50 US Patents and 50 US Pre-Grant Publications may be cited on each eIDS. Examiners can copy and paste US Patent and US Pre-Grant Publication numbers from the eIDS to EAST and/or WEST for searching.

### Key Points

- A paper eIDS Form, similar to the 1449, will be placed in the Examiner's Application Folder for the Examiner to initial, sign, date, and return to the Applicant.
- Up to 50 US Patents and 50 US Pre-Grant Publications may be cited on each eIDS.
- An eIDS is electronic, which requires no additional physical storage space in an Examiner's office.
- Application numbers may be wanded using the Examiner's bar code reader.
- Copy and Paste US Patent and US Pre-Grant Publication numbers from eIDS to EAST and/or WEST to conduct initial searches.
- Paper versions of the cited US Patents and US Pre-Grant Publications do not need to be submitted.
- Printed copies of cited Foreign Patents and Non-Patent Literature need to be mailed to the USPTO for consideration.
- Examiners may notice numbering gaps in the "Citation No." column on the printed eIDS Form due to an Applicant data entry error. This will not affect the eIDS and is no cause for alarm. To see an example, select here.

### Action Required by Examiners

To use the eIDS tool, Examiners must double-click on the eIDS icon located on their desktop:

Examiners can also key-in the URL for the eIDS search page using Internet Explorer:  
<https://garcia.uspto.gov:7101/efs/IDSSearch.jsp>

Examiners will use the printed eIDS Form, found in their Application Folder to initial the US Patents and US Pre-Grant Publications that they reviewed. The Examiner will then sign and date the eIDS Form and submit it to their LIE for processing and mailing.
